June 10 -12, 2024 | Hawai'i Convention Center, HI
CALL FOR SUMMIT WORKERS!

We are seeking student support. Student workers would participate as scribes for small groups and/or support other logistic needs. As we invite activists and scholars who have challenged their governments, militaries, and corporate exploiters to support their people and their lands and to engage and partner with one another, it is important that these discussions are well documented and captured by scribes to provide key information to the Protecting Oceania end of the day synthesizers and for our comprehensive record of the gathering. All student workers will receive a stipend for 3 days plus training and will be required to attend a scribe/note-taking training on June 9th

For any questions or concerns please email Center for Pacific Islands Studies at cpiscon@hawaii.edu.
